GROUP 1600 Pat. App. 09/529,043

- 72. The isolated pyruvate carboxylase gene according to claim 71 with a regulatory gene sequence associated with the tac promoter.
- 73. The isolated pyruvate carboxylase gene according to claim 70 associated with a regulatory gene sequence.
- 74. A nucleic acid comprising an isolated pyruvate

 2 carboxylase gene according to claim 65, preceded by a promoter and

 3 associated with a regulatory gene sequence.
 - 75. A vector containing an isolated pyruvate carboxylase

 N gene according to claim 65.
- 76. A transformed cell containing in replicatable form
 2 an isolated pyruvate carboxylase gene according to claim 65.
- 1 77. A transformed cell containing a vector according to claim 75.
- 78. A transformed cell according to claim 76 belonging to the genus Corynebacterium.
- 79. A transformed cell according to claim 76, in which 2 an enzyme which participates in synthesis of a corresponding amino
